Re: Clarifications to RFP
Invitation #: DR09-17
Product/Service: Debris Removal and Clearance Services
Responses Due: July 11, 2017

Questions have been submitted to HGAC for which HGAC management is providing the following replies:

1) Would HGAC consider removing CLIN 2.6 all together since CLIN 2.7 and CLIN 2.8 include the scope of work described in CLIN 2.6?

Subsection 2.6 is intended to cover those vegetative debris mitigation services other than grinding (2.7) or incineration (2.8)

2) Form D-Schedule 2 has a column titled "Estimated Hours" however it is blank. Typically, if this column is included on a bid schedule it is typically filled in by the Purchasing Agency as it is used as a calculator to reach a total. Does H-GAC expect the Contractor to fill in the "Estimated Hours" column? Proposers shall supply their applicable specific hours or range-of hours, and then their associated hourly rate, and the total between the first two columns.

3) Form D-Schedule 2 has a table titled "Labor Category", there are duplicate columns requesting "Hourly Labor Rate" for each category of labor.
Does one of the duplicate columns need to be revised or deleted?

This was an oversight. This third column should read "Total", and treated as such.
