

Disaster Debris Clearance and Removal Services Program – Disaster Debris Hauler Corporate Overview –

AshBritt, Inc.

AshBritt, Inc. is a nationally recognized rapid-response disaster recovery and special environmental services contractor. Since 1992, we have managed and executed over eighty disaster projects and twenty-eight special environmental projects, successfully serving more than seventy-five clients. We have been directly involved in the debris recovery missions of thirty federally declared major storms in twelve states. These missions have included ice storms, tornadoes, floods, wildfires, tropical storms and major hurricanes.

All of our missions have been conducted in a safe, timely, and cost-effective manner. AshBritt's extensive past experience has created a wealth of knowledge and skill for our principals, managers, and field personnel. Our senior management and technical consultants have more than 150 years of combined disaster debris management experience, and are intimately acquainted with all facets of disaster recovery, including debris collection, management, reduction, recycling, mitigation and disposal.

Our key technical experts are former officials in the U.S. Army Corps of Engineers, the Department of Housing and Urban Development, the Environmental Protection Agency, and Federal Emergency Management Agency.

Disaster Debris Clearance and Removal Services Program – Disaster Debris Hauler Corporate Overview –

Ceres Environmental Services, Inc.

Ceres Environmental Services, Inc. is one of the nation’s leading disaster response and recovery companies. Mobilizing over 450 pieces of owned equipment from its permanent deployment facilities in Texas, Louisiana and Florida, Ceres has performed over \$700M in FEMA-funded disaster recovery work following such hurricanes as Dolly, Gustav, Ike, Katrina, Rita, and Wilma.

Ceres received an “Outstanding” evaluation from the U.S. Army Corps of Engineers for its \$500M Hurricane Katrina cleanup effort in Louisiana. For over three decades Ceres has worked in virtually every U.S. state and territory, responding to hurricanes, tornadoes, floods, winter storms, and other debris-generating events.

Ceres has never been debarred, defaulted on a contract, failed to complete a contract, nor had any client denied reimbursement. Ceres Environmental Services, Inc. provides full services for disaster recovery to governments and government agencies. We provide debris removal and reduction, assistance with FEMA reimbursement, demolition, hazardous tree trimming and removal, asbestos-containing material removal, waterway debris removal, and other specialty services.

Disaster Debris Clearance and Removal Services Program – Disaster Debris Hauler Corporate Overview –

D&J Enterprises, Inc.

Our company, D & J Enterprises, Inc. is a contracting firm with over 35 years of hands on experience as a prime contractor for debris removal, reduction, disposal and management following natural and man-made disaster events.

Since we performed our first emergency debris removal and clean-up project following Hurricane Camille in Corpus Christi, Texas in 1970, the company has become a major contractor in the field of debris management and has performed over 200 separate, FEMA funded, disaster response contracts throughout most of the continental United States as well as the Caribbean totaling over \$500,000,000, at times employing over 600 employees, 500 subcontractors, and 1,000 trucks, daily.

In 1995, we were the only outside company selected to assist in the disposal of 2,000,000 tons of debris on the Island of Japan following the Earthquake of 1995. D & J’s principals supplied its’ own equipment and manpower for debris reduction sites on the Islands of Ashiya and Koshien, training Japanese personnel in the efficient reduction and disposal of debris for a one year period. D&J was the US Army Corp of Engineers ACI contractor for Hurricane Rita. D&J was tasked to respond to 14 counties in Texas, where we picked up, reduced and disposed of over 6 million cubic yards of debris. D&J Enterprises received an ‘Outstanding Performance’ award from the Corp for this completed mission.

Phillips & Jordan, Inc.

Phillips & Jordan, Inc. is a Knoxville, Tennessee, based general and specialty contractor with regional offices throughout the Southeast and California. Established in 1952, Phillips & Jordan has decades of construction expertise that include: site development, heavy civil and design build, land clearing, reclamation and mitigation, solid waste landfills, right-of-way maintenance, construction management, and disaster management. We have been delivering Disaster Recovery Services since the 1970's. We were tasked by the Corps of Engineers to manage the Forensic Recovery Operation at the Staten Island Landfill after the September 11, 2001 terrorist attack on the World Trade Center. We provided Disaster Recovery Services to multiple jurisdictions throughout Louisiana, Alabama and Florida after hurricanes Katrina, Rita and Wilma during the hurricane season of 2005. As the nation's leading provider of Disaster Recovery services, Phillips & Jordan, Inc. will minimize risk by quickly, safely and efficiently removing and processing debris. With our experience in disaster recovery, trained staff, understanding of FEMA reimbursements process, extensive network of exceptionally qualified subcontractors, bonding ability and financial capability, Phillips & Jordan, Inc. offers the most effective solution for disaster debris services.
