# Assemble-To-Order (ATO) System

## You Make the Choices

The ATO System makes it easy to custom order specific MSA products, so they can be configured exactly the way you want them.

## Create Your Own Model Number

Using the ATO System is easy. By selecting from the ordering selection matrices on the following pages, you can easily create your own model number for the product and accessories you want. Just select the number or letter in each column that corresponds to your choice, and list it in the appropriate box at the bottom of the chart. Prices are listed, too.

## Versatility and Fast Response

Since the ATO System offers unparalleled versatility, the selections you can make are virtually limitless. Keep in mind, too, that if you have special requirements not fitting the standard ATO ordering matrix, these can be handled through special orders by contacting your MSA distributor or the MSA Customer Service Center.

<sup>m</sup> Special note regarding approvals – Approvals are only available (and were obtained) for each component (APR and PAPR) as an independent CBRN respirator. Although the APR, PAPR and SCBA have been evaluated for seamless convertibility in a contaminated environment, there is currently no standard for which to seek this type of system approval and they have not been evaluated by NIOSH. Users are required to convert among modes in an uncontaminated environment. Please see user's instructions for specific approval information and limitations.
