**Subject:** 2024 Supervac & Command Light Pricing  
**Date:** Tuesday, March 5, 2024 12:05:16 PM

---

Mr. Bedford,

Attached is the updated Super Vac's & Command Lights 2024 Pricing in a PDF and Configurable excel format. You are able to insert your discount in the top right hand corner cell E1 to give you both list and dealer cost. This will take effect on all orders placed on or after April 1, 2024 giving you some time to still order at 2023 pricing. If you need assistance with ordering new demo equipment or discussing your discount level please feel free to contact me anytime.

We have added new Battery Powered Smoke Ejectors in all battery platforms. We no longer can offer gasoline powered saws, so those have been removed. We have added new 20" bar and chain options to the popular battery powered chain saw upgrade kits. We have also added a new portable light to our battery lineup called the EOS on the Command Light side of things. I have attached a demo program for this light to help your company with continued sales for your sales staff.

Our production line has been working hard to reduce lead times, which are now down to an average of 7-8 weeks on most items. As always, if you need something quicker, please let us know and we will try to help. There are still a few supply chain issues, but those will be over within this year.

We appreciate your business,

**Aaron Ford**  
Western Regional Sales Manager
