## Current Situation

This contract is a continuation of an existing contract in our portfolio, consisting of Speed Detection Instruments/Systems (fixed vehicle-mounted detectors and hand-held designs), Unmanned Speed Radar Displays (free standing signs and trailers); and In-Vehicle Video Recording Systems and other related equipment. Three new brands have been added, covering Speed Detection, Car Video, Body Worn Camera, and Mobile Computing. All bid responses have been evaluated by H-GAC staff. Twelve bids are being recommended for award. The response from Portable Computer Systems, Inc dba PCS Mobile was deemed non-compliant due to omission of required documentation. Request authorization for contracts representing the lowest responsible bidder providing best value for product items as summarized in the Award Recommendations Table, and, if applicable, to extend contract assignments to other authorized entities during the contract period. If an awarded bidder fails to execute a contract within forty-five days, fails to maintain required licenses, or is determined to be ineligible, authorization is requested to contract with the next lowest responsible bidder.

**Funding Source:** Participating local government purchasers

**Budgeted:** NA
