

HGACBuy Solicitation #AO04-26

Customization Categories Pricing Form

Respondent: **Specialty Vehicles**

Due to the potential specialization associated with some vehicles, as applicable, responses may include a completed H-GAC Customization Table. This table is meant to isolate those special/custom options that do not fall under the published manufacturer's standard options, and which may be required to address custom configurations. If customization typically or potentially applies to the vehicles that Respondent is proposing for this Solicitation, Respondent shall group these options into categories (as narrowly defined as possible – reference examples provided on this form) and price on this form. Respondent may quote as many categories as deemed necessary to cover any anticipated customization that may be required when building these customized vehicles.

Please name each category accordingly. Below are some examples of customization categories and options that could be used when configuring these categories. Respondent will provide a price range for each Category, and pricing should specify the low and high price range (\$) for that specific category. This price range will apply to all options within the category.

FE Trolley - Villager Gasoline

Seating & Accessibility	Seating configurations, accessibility features, ADA compliance options, and seat cushion customizations	\$50.00	\$18,471.88
