## *Mobile Bandstand*

**June 2020**

**FrontRow 4300** series mobile bandstand stages offer versatile outdoor staging in a compact, easy-towing package. Simplified, push-button, hydraulically actuated setup makes this stage series a great choice for a variety of community events and activities. Exceptional maneuverability allows these stages to be positioned in confined, limited-access sites.

**FR4300** mobile bandstands are performer-friendly, featuring a roof canopy that extends beyond the stage deck on all four sides providing sun and weather protection for performers and equipment. Canopy is sloped away from the audience side of the stage, directing precipitation run-off to the rear. Canopy incorporates sound and lighting equipment attachment.

An attractive appearance, all-weather construction, and setup simplicity make the **FR4300** series of mobile stages great performers.
