

Get Under Bridges For Any Reason!

Rent equipment from Anderson UnderBridge for:

- Maintenance — general, regular or special
- Inspections — quick or comprehensive
- Repair work — minor to major
- Stripping, painting or sandblasting
- Installation or maintenance of conduit, pipe, cables or more
- Replacing lighting or bearings
- Any reason to get UnderBridge

Renting may be the best solution!

When you need to get under a bridge, but purchasing your own platform isn't justified, renting is the answer! We help you cut scaffolding time from days to hours, and complete complex jobs in days instead of weeks. Simply put, Anderson UnderBridge is the perfect solution when ***overhead is underneath.***™

Safety Is Top Priority

Anderson certified operators complete over 200 hours of hands-on training before entering your job site. All units are inspected by two certified technicians prior to every rental to ensure compliance with quality standards.

You Operate

Though our equipment can perform complex functions, they are pretty simple to operate. With thorough training at our facility in York, SC — or at your jobsite if that's your choice — you can easily learn all you need to know for full operation.

We Operate

Identifying someone on your team with the time to operate it may be harder than actually operating it. Problem solved! We have trained operators ready to assist at your job site.

Once you decide you're ready to rent, we'll handle all the details. Just answer a few questions:

- Do you want to operate it, or contract us?
- Do you want to pick it up, or have us deliver it?
- Do you want it for a year, a month, a week or a few days?
- Do you need an all-in-one truck, or a trailer mount?

We'll help you figure out the variables and get you the right equipment for the job.
