

**Fully hosted,
On Demand,
Software as a Service.**

Quick Access to Your Inspections

ITpipes Cloud securely stores and archives your pipe inspection data and videos in the cloud for unparalleled access. Users can access inspections and review comprehensive detail anywhere.

Data Management Simplified

ITpipes Cloud simplifies data management and storage of pipe inspections, minimizes necessary capital investment in hardware and minimizes the demand on IT resources. This turn-key solution administers unlimited access to your inspections.

Own Your Data

With ITpipes Cloud, clients own their data. At any time during an active subscription period and for a predefined time after subscription expiration, clients can download all their inspection data in an open architecture database format with related media files.

**Anywhere.
Any device.
Any time.**

Fully Managed Inspection Data

ITpipes Cloud fully manages your comprehensive inspection detail. This includes asset and inspection data, observations, snapshots, videos, PDFs and related files. This eliminates the need for VPN, remote, or other special software setups. ITpipes manages inspection data for government agencies, contractors, and engineering firms to give you shared access to updated inspection information.

Low Capital & Resource Investment

Minimizes large, capital investments in hardware and servers by provisioning exactly the resources you need, as they are needed. Minimize your initial and ongoing IT resource needs for management of hardware servers and related services.

Pipeline Inspections. Actionable Intelligence.

Inspections When and Where you Need Them.

Seamless integration with Cityworks, Cartegraph, Infor, Lucity, and Tyler Tech.

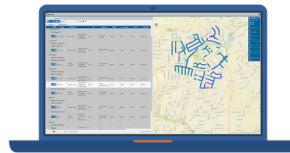

ITpipes Mobile - Easy Inspections

Expedite inspections and boost performance with ITpipes Mobile. This powerful software is compatible with the majority of camera systems on the market and is NASSCO and SPICAP certified.

ITpipes Web - Dynamic Reporting

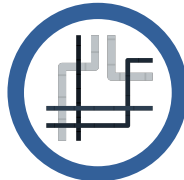

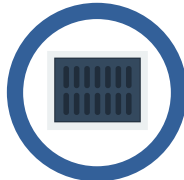

ITpipes Web offers unlimited, drill-down filtering and SmartTabs to quickly display inspection results. As inspections sync, corresponding assets are color coded and displayed on the included map. Instantly create reports and export to share inspection data with others.

ITpipes Cloud - SaaS or Local

Fully hosted, on-demand, and SaaS, ITpipes Cloud securely stores and archives your pipe inspection data and videos for easy access anytime, anywhere. On-premise, local storage or client hosted cloud storage is also an option with ITpipes applications.
