it pipes™
Mobile

More Time Inspecting, Less Time Organizing.

Easy to Learn

ITpipes intuitive workspace makes training a snap and inspectors are ready to start inspections ASAP!
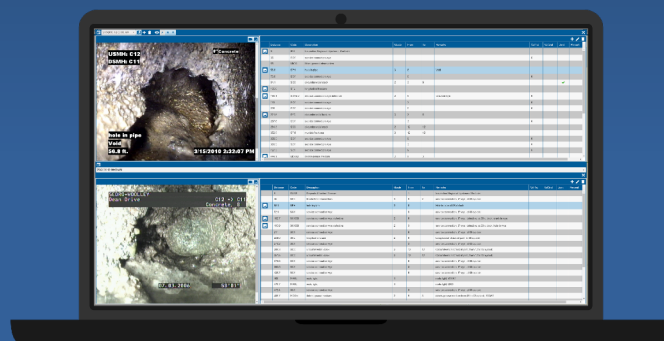

Expedite Observation/Inspection Logging

Hotbuttons© expedite observation and inspection logging. Mobile increases efficiencies when inspecting storm lines, sewer lines, lateral lines, or performing smoke & dye testing, grout inspection, and cross-bore/gas inspections.

Minimizes Operator Efforts

ITpipes has automated digital voice-over, automated media controls for snapshot capture, instantly generated reports, notification on continuous defect closure, and more features to simplify operator required efforts!

Fast Inspection Sharing

Use auto-generated PDF reporting for printouts or emails and fast inspection sharing. ITpipes Sync for end of day and project reporting saves field crews time and effort!
Smooth, Streaming Video

Record pipe inspection video direct in standard video format and/or high-definition video format. Format recording file types include standards such as WMV, MPEG 4/2/1 and options for H.264 – best for video streaming over the web.

Accurate, Field Data Entry

Pre-populate asset lists from GIS or AMS before or during inspections to save time and eliminate errors during field data entry! Also, client projects store specific settings to eliminate field guesswork.
Boost Inspection Footage & Performance.

ITpipes Web - Dynamic Reporting

ITpipes Web offers unlimited, drill-down filtering and SmartTabs to quickly display inspection results. As inspections sync, corresponding assets are color coded and displayed on the included map. Instantly create reports and export to share inspection data with others.
ITpipes Sync - Automated Mgt

Sync can upload or download data, apply updates, send out automatic notification to users and is fully configurable. Settings allow Sync to run on a pre-defined schedule or on demand, as needed.

ITpipes Cloud - SaaS or Local

Fully hosted, on-demand, and SaaS, ITpipes Cloud securely stores and archives your pipe inspection data and videos for easy access anytime, anywhere. On-premise, local storage or client hosted cloud storage is also an option with ITpipes applications.

Unparalleled Support.
