RS Series

Skidsteer Mount

F.O.B. Brownsburg, IN 46112

High Flow Road Saws

Standard Equipment:

Road saws are equipped with 3 line, single circuit plumbing

Electro-hydraulic auxiliary control of depth and sideshift

RS10 has 0 to 10 inches of cutting depth; RS18 has 0 to 18 inches of cutting depth

Cutting wheel equipped with Kennametal teeth, part number 106-0832

Fairfield planetary reduction hub and Sauer piston motor drum drive system

Tooth removal tool, operation, parts and service manual

MUST SELECT QUICK COUPLERS & TYPE and CONTROL TYPE FROM NEXT PAGE

*Hydraulic quick couplers not included in base price; see options page for coupler selection *

Product Code	Description	Min. GPM/PSI	Weight	Factory List
RS10	Road Saw - 10" (select wheel below)	30/2500	1,196	\$15,110.00
2.5	2.5" cutting wheel for RS10		127	\$3,230.00
4.5	4.5" cutting wheel for RS10		165	\$3,880.00
RS18	Road Saw - 18" (select wheel below)	30/2500	1,972	\$23,370.00
3.0	3.0" cutting wheel for RS18		372	\$4,040.00
4.5	4.5" cutting wheel for RS18		426	\$4,640.00
6.0	6.0" cutting wheel for RS18		481	\$5,110.00

Tension meters and replacement belts

Product Code	RoadHog TENSION METERS	Factory List
SO-0249	Sonic Belt Tension Meter, required for setting drive belt tension	\$1,393.23

For extremely accurate belt tension measuring, the RoadHog sonic tension meter is an electronic device that measures the natural frequency of the stationary belt span and instantly computes the static belt tension. The meter can be used, and is highly recommended, on any RoadHog belt(s). Standard equipment on all WL & TLB RoadHogs.

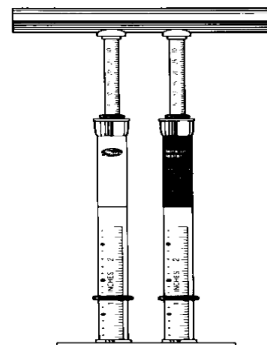

Other features include:

- ☒ Output readings can be switched between pounds, kilograms, newtons and hertz.
- ☒ Auto gain control automatically adjusts meter sensitivity.
- ☒ Auto frequency range filters for background noise
- ☒ Frequency range from 10 - 5,000 Hz

106-3842	Manual Belt Tension Meter - for SSL RH's only	\$207.44
----------	---	----------

Manual Belt Tension Meter SO-3842 is standard with all SSL RoadHogs. For accuracy & ease of use, the Sonic Belt Tension Meter is always recommended. Manual Belt Tension Meter should be used on smaller units only.

Product Code	RoadHog REPLACEMENT BELTS	Factory List
106-4263	Drive Belt - SSL RoadHogs	\$330.00
106-2753	Drive Belt - All 73, 74, 78 & 80 hp TLB RoadHogs	\$450.00
106-2229	Drive Belt - All 138, 140 & 148hp WL RoadHogs	\$800.00
106-2363	Drive Belt, REQUIRES QTY OF 2 , 200 and 225hp WL RoadHogs*	\$580.00
106-6236	Drive Belt, REQUIRES QTY OF 2 , 250 and 275hp WL RoadHogs*	\$1,191.95

***SOLD IN FACTORY MATCHED SETS ONLY. MUST BE REPLACED IN SETS !**
