Subject: New product for WM09-20, WM0982G HydroPro Solutions Software Management

HydroPro Solutions appreciates the opportunity to provide the following pricing and availability for our HPSecure Invoicing Platform. This platform is designed to provide a complete security solution to protect your firm from a Cyber Criminal attack targeting your invoicing processes. Whether managing customer invoicing or managing invoicing from a Vendor, this platform provides you the piece of mind to know your invoicing and cash recognition process will be secure. Additionally, this Platform provides enhanced Accounts Receivable and Payable controls and communications ability to interact with your customers and/or vendors.

The following Solution includes the activation of deployment of HPSecure Invoicing to include:

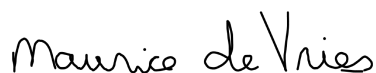

- Setup and Training
- Options to integrate with existing ERP/Accounting platform(s)
- Ongoing Support
- Annual data hosting

Billing is done on an annual (12 month) basis for the following deployment options:

Number of Client Accounts	Number of Invoices per Month	Annual Subscription Price including Phone/Email Support	Custom Integration Fee up to 8 hours
Up to 100	Up to 500 per month	\$26,000.00	\$16,000.00
101-200	Up to 1000 per month	\$48,000.00	\$16,000.00
201-500	Up to 2500 per month	\$120,000.00	\$16,000.00
