<b>Model 522 M<sup>1,3,4</sup></b>	
Touch Coupler Port & Inline Connector Port	\$ 279.67

### Notes:

<sup>1</sup> Includes interval data and leak detection.

<sup>2</sup> Leak detection/interval data is only available with AR 5500 handhelds or greater and parsed using AutoRead version 5.5.0 or higher.

<sup>3</sup> The SmartPoint reads hourly and transmits every four (4) hours in normal mode and/or every five (5) hours in tri-mode.

<sup>4</sup> The SmartPoint monitors continuous consumption of the meter in one (1) hour intervals.

<sup>5</sup> MXU discontinued March 31, 2018

Vehicle DriveBy to Vehicle DriveBy (On Support)	7,8		No Charge
Vehicle DriveBy to Vehicle DriveBy (Not on Support)	7,8		\$5,375.40

#### Notes

<sup>1</sup> Module includes Handheld WB Module capabilities.

<sup>2</sup> First year software support included with the purchase of an education package. System support will begin upon completion of education, known as the anniversary date.

<sup>3</sup> If customer chooses not to purchase education package, first year support is due at time of equipment purchase. First year support begins on date of software shipment, known as anniversary date. Please refer to the Support tab for pricing.

<sup>4</sup> Price is for up to 35,000 services. Please call for services greater than 35,000

<sup>5</sup> All software is single-seat licensed. Add additional seat licenses for \$275.00 (net).

<sup>6</sup> Education is not included in above upgrade and can be purchased separately.

<sup>7</sup> Hardware and software upgrades are sold separately.

					\$ -	\$ -	\$ -	\$ -	\$ -	\$ -

Notes:

- 1 Number of services should be calculated based on total number of water, gas and/or electric endpoints
- 2 At least one of each item above is required for an EasyLink purchase; The only exception is to select Standard or Custom Integration
- 3 One WorkSpace license is required for each person that will require individual login credentials and require access to the WorkSpace application
- 4 One WorkBook license is required for each EasyLink Reader and/or each meter reader that requires individual login credentials
- Annual software support is calculated based on the sum of the total dollar value of the following: EasyLink server license price + Total price for Number of
- 5 WorkBook licenses + Total price for the number of WorkSpace licenses X 20%
- 6 Annual software support and hosting fees are due at the completion of set up and configuration in year one
- 7 Support and hosting anniversary date is based on the completion date of set up and configuration
- 8 Set up and configuration includes delivering a hosted platform.
- Standard integration is defined as the following: 1.) Direct integration between EasyLink and CIS/billing system 2.) No file customization required 3.) Use this option when it has been determined that a Utilities CIS/billing system can support the EasyLink default format (adheres to MVRs specifications and EasyLink
- 9 field requirements)
- An EasyLink implementation is considered custom in the following scenarios: 1.) The CIS/billing system cannot support the EasyLink default format and
- 10 customization is required 2.) Easylink readings will be imported into a 3rd party MDM 3.) EasyLink readings will be imported into Sensus Analytics
- 11 2 day onsite event provided by Sensus, travel expenses included.
- 12 Workbook and Workspace licenses and Professional Services orders will be invoiced upon receipt of order.

## Project Management and Implementation Services

### Comments

1 Billing Integration Fee for RNI with out Sensus Logic will require separate quote variable on the meter data management software used

2 RNI Setup is per utility service. If the Utility Customer is a dual or tri combo utility, RNI Setup fee would be charged for each Water, Gas, or Electric service software license.

3 Sensus RNI Billing Integration Fee covers Sensus Logic portion only. Utility billing software provider may charge additional fees to integrate with Logic. The customer will be responsible for any/all expense incurred from the billing software provider at its discretion.

4 Start up/Testing/ Commissioning includes getting the system setup for remote configuration working with customers IT personnel.

5 Utility is responsible for all site preparation. Utility responsibilities for Metro/Basestation site preparation are outlined in the Sensus Advanced Metering Infrastructure (AMI) Terms.

6 Price does not include backhaul or preparation to install backhaul. Utility Customer required to provide Communication Backhaul.

7 Training includes three days onsite training for endpoint programming, installation and maintenance. Additional training requirements can be provided at a cost of \$1500 per day.

8 First year of maintenance support is provided free. Terms and conditions for maintenance are outlined in attached document CF-R-FLX-10-0311

9 Project Management fee include a Thirkettle Corporation Certified Sensus project manager to help coordinate project.

10 Phone Support

11 Minimum of Four Hours Required

12 Price per antenna.

### Extended Warranty Programs

R100NA Collector	1-Year	PM R100NACO WAR	\$	363.55
SPM-900	1-Year	PM SPM-900 WAR	\$	249.86

#### Notes:

2 Base Station Protection Plans are only available in five (5) year increments; Pricing shown is per year; Annual CPI increase of 3% will be applied on renewals

3 Base Station Protection Plans include the repair or replacement of defective parts (including labor) as well as upgrades to meet minimum software & hardware requirements for Sensus products

4 For full details please reference the Distributor Portal>Marketing Docs>Water>Base Station Protection Plans

5 Extended Warranties are only available on base stations purchased prior to April 1, 2020; Customer may opt to purchase anytime during the period that the initial standard warranty is in effect; Extended Warranties are not available after the initial standard warranty has expired; Annual CPI increase of 3% will be applied on renewals

6 Extended Warranties and Base Station Protection Plans are an optional service. Products have a standard warranty with the initial purchase. Extended Warranties and Base Station Protection Plans, if purchased, will go into effect following the expiration date of the standard warranty.

7 Base Station Extended Warranty includes firmware maintenance/upgrades, remote diagnostics of operational issues, and repair or replacement of defective parts or units. Warranty does not include batteries, labor, or standard maintenance. Warranty does not cover "acts of God."

#### Notes

## WM0925E Meter Installation and Testing Services Pricing Catalog

### Meter Installation and Testing Services

1. All pricing is labor only unless specified.
2. All listed pricing shown per unit unless specified.
3. Tiered Quantity Discounts may be available. Please contact for additional information and tiered discount pricing.
4. When changing a meter from a larger size to a smaller size, the change out price will be the price of the larger meter. (i.e. 2" to a 1" pricing would be the 2" cost.)
5. Rocks, Roots & Other: Anytime that we run into problems with tree roots, rocks or other obstructions that drastically increases the amount of time it takes to dig up meter boxes and/or water lines, there will be additional charges that would be applicable. The Utility can be notified of problem meters, boxes and lines prior to any additional charges, pending their approval. Anything out of the scope of a standard meter change out will be charged at the special job hour rate.
6. Galvanized Lines: We will not be held responsible for damage to galvanized lines. All repairs to those lines will be charged at the rates stated above.
7. Due to the scope of work it will be impossible to have line locates done at every location in the City. Telephone and cable lines are not even able to be located. We will not be held responsible for any damage to lines that might be damaged during the digging process.
8. Pricing does not reflect the replacement of sod and/or landscaping.
9. Any concrete work/asphalt work and/or sand around meter boxes and vaults would be additional.

### Aclara kV2C Notes and Options

1. Pallet size is 96 meters.
2. Standard Warranty is twelve (12) months from the date of installation or eighteen (18) months from the date of shipment, whichever occurs first.
3. Minimum Order Quantity: 8 Meters

### Electric Meter Warranty Information

Description		Standard Warranty	Annual Price
Sensus Meters	iConA Gen 4, Stratus, Stratus IQ	1-Year	1% of Sales Price
Honeywell Meters	A3 ALPHA	1-Year	1% of Sales Price
Aclara Meters	Aclara I-210+c, Aclara kV2c	1-Year	1.25% of Sales Price

### Warranty Notes

Extended warranties are an optional service. Products have a standard warranty with the initial purchase. Extended warranties, if purchased, will go into effect following the expiration date of the standard warranty. Standard warranty plus any extended warranties purchased may not exceed five (5) years from date of shipment. Any repairs after five (5) years from date of shipment will be invoiced at current repair rates.

### Warranty Notes:

Extended warranties are an optional service. Products have a standard warranty with the initial purchase. Extended warranties, if purchased, will go into effect following the expiration date of the standard warranty. Standard warranty plus any extended warranties purchased may not exceed five (5) years from date of shipment. Any repairs after five (5) years from date of shipment will be invoiced at current repair rates.

## Sensus Water Meters and Ancillary Product Parts List

### accuSTREAM Meter Parts Notes

- Specify registration by letter designation:
  - US Gallon
  - Cubic Feet
  - Cubic Meters
  - Other
- Specify spud size by letter designation:
  - 5/8"
  - 5/8" x 3/4"
  - 3/4"
  - 1"
- 3/4" maincase specify 9" or 7-1/2" length available only with 3/4" spud.

### SR11 Meter Parts Notes

- Bronze lids must be used with bronze bonnets and plastic lids with plastic bonnets.
- Requires a 1/4" drive tool (order separately) for use.
- Can be used only with plastic register bonnet.
- Specify registration by letter designation:
  - US Gallon
  - Cubic Feet
  - Cubic Meters
  - Other (specify)
- Specify spud size by letter designation:
  - 5/8"
  - 5/8" x 3/4"
  - 3/4"
  - 1"
- For 3/4" maincase specify 9" or 7-1/2" laying length; 7-1/2" length available only with 3/4" spud
- Configurator is required when ordering Register (ICE/Electronic Register). See the Electronic Register Configurator located in the distributor portal.

### OMNI Meter Parts Notes

- Replacement register part orders require meter serial number for original meter calibration.
- OMNI ReNew Replacement Chamber Program:** OMNI ReNew replacement chambers are new OMNI measuring chambers that have been accuracy tested to the appropriate AWWA standard, with the chamber seal o-ring included and ready for installation into your main case (NO old chamber return is necessary with the OMNI ReNew Program). Simply identify the type and size chamber that you require by type (T<sup>2</sup>, C<sup>2</sup> or F<sup>2</sup>) which is displayed on the register lid and size displayed on side of OMNI meter. T<sup>2</sup> and C<sup>2</sup> chambers are interchangeable for like sizes. F<sup>2</sup> chambers must only be used in F<sup>2</sup> main cases due to the UL/FM and Fire Protection liabilities.
- Badger Recordall® Turbo Series: OMNI ReNew replacement chambers will retrofit Badger Turbos of like sizes (latest series only).
- For information on the OMNI Communicator with UniPro Software, refer to the Water Price Book & AMR/AMI Pricing.

### Turbo Meter MMP Notes

- Modernization and Maintenance Plan (MMP):** Provides utilities the ability to purchase a replacement Sensus Turbo Meter measuring chambers complete.
  - The following meter information is required to properly process your order:
    - Meter size, registration units, register type (if other than Sealed Direct Read; see options below).
    - Other options include AWWA strainers, test risers, Pre-Fab-Pak and complete installation packages.
  - Meters shipped with standard direct-read registers, less AWWA strainers unless otherwise specified by model. Sensus recommends strainers and test ports on all turbine-type meters. Note the "DRS" Turbo meter models include an integral inlet strainer and test port on the same bronze maincase. Contact Sensus for installation guidelines, spool pieces or other piping accessories for proper meter replacement.
  - RER exchange no longer available for any tester, size or type.
  - RER assembly available for 5/8" SR11, 125-W, W-1250, W-2500 testers. State "rate of flow" and "totalization" registration units on order.
  - Add to list for Reuse Meter Package for all sizes of measuring chambers, includes wet purple coating to external surfaces. "RW" stamp on measuring chamber and register marked "reclaim water" shaded Pantone Purple.
  - Special meter testing requests for other than standard production test rates, add list for each additional test rate. Recalibration, is 1.5x the test only charge.
  - Add to list for Reuse Meter Package for all sizes of measuring chambers, includes wet purple coating to external surfaces. "RW" stamp on measuring chamber and register marked "reclaim water" shaded Pantone Purple.
  - Tester MMP chamber without RER, 5/8" SR11 MMP complete meter without RER. Includes test accuracy tag.
  - 5/8" SR11, 125-W, W-1250, W-2000 Testers only available with RER registers. Includes test accuracy tag. Tester MMP price includes a new RER register. All other MMP chambers standard with an encoded register.

### Add-Ons & Conversion Kits - Propeller Meters Notes

- Includes 20 ft. of wire.
- Includes first 25 ft. of wire. Additional wire available up to 100 ft. in 25 ft. increments.
- I.C. Register Only. Does not include the adapter cup.
- Must be a "sealed register" version of existing Propeller Meters.
- Propeller ICE will be standard 6 wheel read.
- Register shield - For use in direct sun light, a "register shield" is recommended as an add-on for the High Speed Pick-up Register
- Silicon grease provided for terminal weatherproofing - for High Speed Pick-up Register and/or Impulse Contactor, Register Only
- Above does NOT include wire, except for TR/PL which includes 20 ft. and ECR/WP which includes 25 ft.
- Additional wire available up to 100 ft. in 25 ft. increments.

Nicor Connectors Notes

- 1. For use with ICE and Electronic Registers, Pit Set Registers Only.
- 2. Current Standardized Connectivity for: Datamatic, Aclara (Hexagram), and Elster Evolution, or any competitive AMI transmitter that will accept this connector.

Nicor ICE Register Connector

Itron & Nicor Connector w/ TRPL Notes

- 1. This cable is for:
  - Programming Sensus registers with Itron connectors.
  - Converting Sensus registers with Itron connectors to the FlexNet system.
  - Converting Badger ADE Registers with Itron Connectors to FlexNet and RadioRead.
- 2. This cable is for:
  - Programming Sensus registers with Nicor connectors.
  - Converting Sensus registers with Nicor connectors to the FlexNet system.
  - Converting Badger ADE Registers with Nicor Connectors to FlexNet and RadioRead.
