United States Department of Agriculture (USDA) Natural Resources Conservation Service (NRCS) Public Notice
Notice of Availability of the Draft Environmental Assessment (EA)
Brookglen Stormwater Detention Basin, B512-02-00-E001
Harris County Flood Control District
Harris County, Texas

NR197442XXXXC044

To: All interested Federal, State, and Local Agencies, Groups, and Individuals

Interested persons are hereby notified that the USDA's NRCS has awarded Harris County Flood Control District (Flood Control District) grant funds for the purpose of constructing a stormwater detention basin in Harris County, Texas. The project will be funded under the Emergency Watershed Protection Program, for infrastructure improvements under NR197442XXXXC044. In compliance with the National Environmental Policy Act (NEPA) of 1969, National Historic Preservation Act (NHPA), Executive Order 11988, Executive Order 11990, and USDA Departmental Regulation 9500-3, Land Use Policy, an Environmental Assessment (EA) was prepared to assess the potential impacts of the Proposed Action on the human and natural environment. The purpose of this notice is to inform the public of this Proposed Action and request comments concerning the scope of work and environmental effects outlined in the draft EA.

The project area consists of the Brookglen subdivision located in southeast Harris County with Spencer Highway to the north, Venture Lane to the south, Canada Road to the east, and Willow Springs Bayou (B112-00-00) to the west. The Brookglen subdivision was constructed in the late 1970s through the early 1990s within the floodplain of Willow Springs Bayou, a tributary of Armand Bayou. Since its construction, multiple flood events have been recorded in the area. To restore the floodplain and reduce flood risk within the Armand Bayou watershed, a portion of the Brookglen subdivision will be converted into a two-compartment, dry-bottom detention basin that will outfall into Willow Springs Bayou and Tributary to Willow Springs Bayou (B112-02-00). The proposed Brookglen Stormwater Detention Basin (SWDB) project, HCFCD Project ID B512-02-00-E001 (project), consists of approximately 14.3 acres, which includes the construction of a dry-bottom detention basin with approximately 50.4 acre-feet (ac-ft) of stormwater storage capacity intended to mitigate flooding in the watershed. The purpose of this project is to reduce floodwater elevations and floodplain extent under a 10-year flood event.

Information about this project was disseminated to the public during two Community Engagement Meetings. The first was a virtual meeting held online at www.hcfcfd.org via Webex on Thursday, October 15, 2020. The second was a virtual meeting held online at www.hcfcfd.org via Webex on Thursday, May 5, 2022. Video recordings of these two meetings can be found at the website listed below.

The draft EA is available for review at the Flood Control District's main office located at 9900 Northwest Freeway, Houston, Texas 77092, online at <https://www.hcfcfd.org/B512-02-00>, and by request through the email listed below. For comments or questions on the proposed action and associated impacts, please contact the Flood Control District's Projects and Studies hotline, at 346.286-4040. The draft EA will be posted for 30 consecutive days. Written comments may be submitted via email to communications@hcfcfd.hctx.net or through the website listed above. Comments must be received within 45 days of this notice for consideration.

TEXAS COMMISSION ON ENVIRONMENTAL QUALITY

NOTICE OF DISTRICT PETITION
TCEQ Internal Control No. D-05022023-004

PETITION. Peach Creek TX, LLC, a Texas limited liability company, (Petitioner) filed a petition for creation of Walker County Municipal Utility District No. 1 (District) with the Texas Commission on Environmental Quality (TCEQ). The petition was filed pursuant to Article XVI, §59 of the Constitution of the State of Texas; Chapters 49 and 54 of the Texas Water Code; 30 Texas Administrative Code Chapter 293; and the procedural rules of the TCEQ.

The petition states that: (1) the Petitioner holds title to a majority in value of the land to be included in the proposed District; (2) there is one lienholder, H & B Development and Construction, L.P., on the property to be included in the proposed District and information provided indicates that the lienholder consents to the creation of the proposed District; (3) the proposed District will contain approximately 216.78 acres located within Walker County County, Texas; and (4) the land within the proposed District is not within the corporate limits or extraterritorial jurisdiction of any city.

The territory to be included in the proposed District is depicted in the vicinity map designated as Exhibit "A", which is attached to this document.

The petition further states that the proposed District will: (1) purchase, design, construct, acquire, maintain, own, operate, repair, improve, and extend a waterworks and sanitary sewer system for residential and commercial purposes; (2) construct, acquire, improve, extend, maintain, and operate works, improvements, facilities, plants, equipment, and appliances helpful or necessary to provide more adequate drainage for the proposed District; (3) control, abate, and amend local storm waters or other harmful excesses of water; and (4) purchase, construct, acquire, maintain, own, operate, repair, improve, and extend such additional facilities, including roads, systems, plants, and enterprises as shall be consonant with all of the purposes for which the proposed District is created.

According to the petition, a preliminary investigation has been made to determine the cost of the project, and it is estimated by the Petitioners that the cost of said project will be approximately \$31,370,000 (\$28,040,000 for water, wastewater, and drainage, \$3,330,000 for roads).

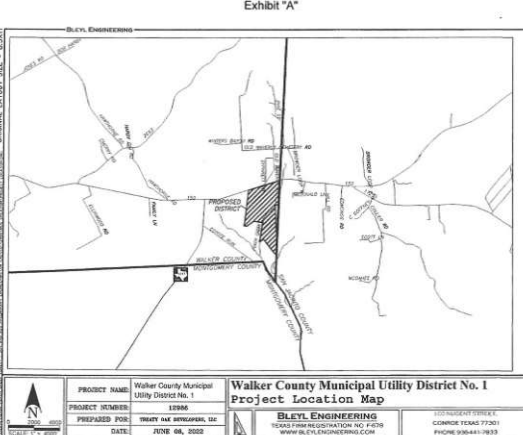

CONTESTED CASE HEARING. The TCEQ may grant a contested case hearing on this petition if a written hearing request is filed within 30 days after the newspaper publication of this notice.

To request a contested case hearing, you must submit the following: (1) your name (or for a group or association, an official representative), mailing address, daytime phone number, and fax number, if any; (2) the name of the Petitioners and the TCEQ Internal Control Number; (3) the statement "[I/we request a contested case hearing]"; (4) a brief description of how you would be affected by the petition in a way not common to the general public; and (5) the location of your property relative to the proposed District's boundaries. You may also submit your proposed adjustments to the petition which would satisfy your concerns. Requests for a contested case hearing must be submitted in writing to the Office of the Chief Clerk at the address provided in the information section below.

The Executive Director may approve the petition unless a written request for a contested case hearing is filed within 30 days after the newspaper publication of this notice. If a hearing request is filed, the Executive Director will not approve the petition and will forward the petition and hearing request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting. If a contested case hearing is held, it will be a legal proceeding similar to a civil trial in state district court.

INFORMATION. Written hearing requests should be submitted to the Office of the Chief Clerk, MC-105, TCEQ, P.O. Box 13087, Austin, TX 78711-3087. For information concerning the hearing process, please contact the Public Interest Counsel, MC-103, at the same address. General information regarding TCEQ can be found at our web site <http://www.tceq.texas.gov/>.

Texas Commission on Environmental Quality
NOTICE OF APPLICATION AND PRELIMINARY DECISION FOR TPDES PERMIT FOR MUNICIPAL WASTEWATER RENEWAL
PERMIT NO. WQ0012874001
APPLICATION AND PRELIMINARY DECISION. B&C Holdings, LLC, 16661 Jacintoport Boulevard, Houston, Texas 77015, has applied to the Texas Commission on Environmental Quality (TCEQ) for a renewal of Texas Pollutant Discharge Elimination System (TPDES) Permit No. WQ0012874001 which authorizes the discharge of treated domestic wastewater at a daily average flow not to exceed 10,000 gallons per day. TCEQ received this application on April 6, 2023.

The facility is located at 16661 Jacintoport Boulevard, near the City of Houston, Harris County, Texas 77015. The treated effluent is discharged to an unnamed ditch, thence to Carpenters Bayou of the Houston Ship Channel in Segment No. 1006 of the San Jacinto River Basin. The unclassified unnamed ditch is minimal aquatic life. The designated uses for Segment No. 1006 are navigation and domestic water supply. All determinations are preliminary and subject to additional review and/or revisions. This link to an electronic map of the site or facility's general location is provided as a public courtesy and is not part of the application or notice. For the exact location, refer to the application at <https://gisweb.tceq.texas.gov/LocationMapper/?marker=-29.102222,29.757222&level=18>

The TCEQ Executive Director has completed the technical review of the application and prepared a draft permit. The draft permit, if approved, would establish the conditions under which the facility must operate. The Executive Director has made a preliminary decision that this permit, if issued, meets all statutory and regulatory requirements. The permit application, Executive Director's preliminary decision, and draft permit are available for viewing and copying at North Channel Branch Library, 15741 Wallisville Road, Houston, Texas.

ALTERNATIVE LANGUAGE NOTICE. Alternative language notice in Spanish is available at <https://www.tceq.texas.gov/permitting/wastewater/plain-language-summaries-and-public-notice>. El aviso de idioma alternativo en español está disponible en <https://www.tceq.texas.gov/permitting/wastewater/plain-language-summaries-and-public-notice>.

PUBLIC COMMENT/PUBLIC MEETING. You may submit public comments or request a public meeting about this application. The purpose of a public meeting is to provide the opportunity to submit comments or to ask questions about the application. TCEQ holds a public meeting if the Executive Director determines that there is a significant degree of public interest in the application or if requested by a local legislator. A public meeting is not a contested case hearing.

OPPORTUNITY FOR A CONTESTED CASE HEARING. After the deadline for submitting public comments, the Executive Director will consider all timely comments and prepare a response to all relevant and material or significant public comments. Unless the application is directly referred for a contested case hearing, the response to comments will be mailed to everyone who submitted public comments and to those persons who are on the mailing list for this application. If comments are received, the mailing will also provide instructions for requesting a contested case hearing or reconsideration of the Executive Director's decision. A contested case hearing is a legal proceeding similar to a civil trial in a state district court.

TO REQUEST A CONTESTED CASE HEARING, YOU MUST INCLUDE THE FOLLOWING ITEMS IN YOUR REQUEST: your name, address, phone number; applicant's name and proposed permit number; the location and distance of your property/activities relative to the proposed facility; a specific description of how you would be adversely affected by the facility in a way not common to the general public; a list of all disputed issues of fact that you submit during the comment period; and the statement "[I/we] request a contested case hearing." If the request for contested case hearing is filed on behalf of a group or association, the request must designate the group's representative to the general public and physical address an individual member of the group who would be adversely affected by the proposed facility or activity; provide the information discussed above regarding the affected member's location and distance from the facility or activity; explain how and why the member would be affected; and explain how the interests the group seeks to protect are relevant to the group's purpose.

Following the close of all applicable comment and request periods, the Executive Director will forward the application and any request for reconsideration or for a contested case hearing to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

The Commission may only grant a request for a contested case hearing on issues the requestor submitted in their timely comments and request, not subsequently withdrawn. If a hearing is granted, the subject of a hearing will be limited to disputed issues of fact or mixed questions of fact and law relating to relevant and material water quality concerns submitted during the comment period. TCEQ may act on an application to renew a permit for discharge of wastewater without providing an opportunity for a contested case hearing if certain criteria are met.

EXECUTIVE DIRECTOR ACTION. The Executive Director may issue final approval of the application unless a timely contested case hearing request or request for reconsideration or for a timely hearing request or request for reconsideration is filed, the Executive Director will not issue final approval of the permit and will forward the application and request to the TCEQ Commissioners for their consideration at a scheduled Commission meeting.

MAILING LIST. If you submit public comments, a request for a contested case hearing or a reconsideration of the Executive Director's decision, you will be added to the mailing list for this specific application to receive future public notices mailed by the Office of the Chief Clerk. In addition, you may request that we add you to the permanent mailing list for a specific applicant name and permit number; and/or (2) the mailing list for a specific county. If you wish to be placed on the permanent and/or the county mailing list, clearly specify which list(s) and send your request to TCEQ Office of the Chief Clerk at the address below.
