THE INFORMER

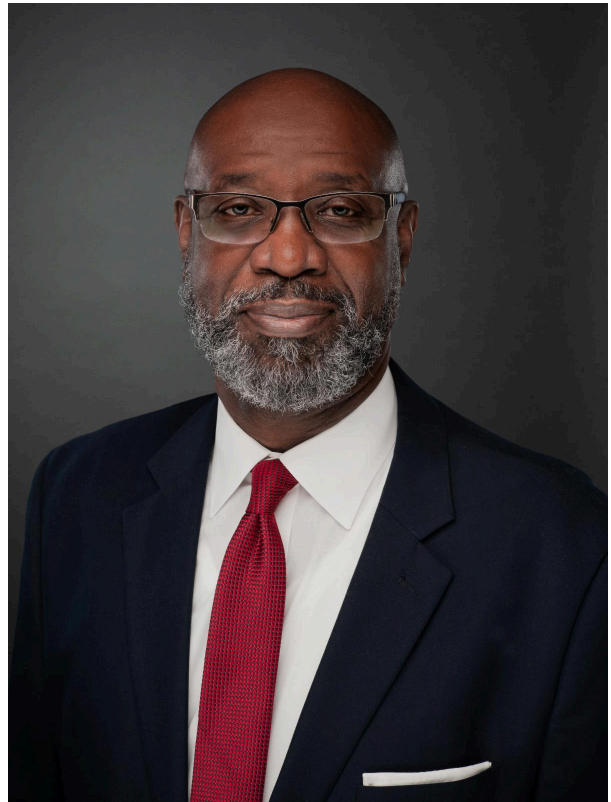

DIRECTOR'S MESSAGE

We are thrilled to announce the addition of **Contract RH04-25 Refuse Handling Equipment** to our product offerings for our valued members. This new contract represents a significant enhancement in our commitment to providing top-tier solutions and services.

Our dedicated team, alongside our supplier partners, is committed to providing unparalleled service and support to ensure the best possible outcomes.

We look forward to continuing our tradition of excellence and supporting our members with cutting-edge solutions and services. Thank you for your trust and confidence in HGACBuy.

Ronnie Barnes
Director of Enterprise Solutions
HGACBuy

CONTRACT OVERVIEW

Contract Name: Refuse Handling Equipment

Contract Number: RH04-25

Contract Dates: April 1, 2025 – March 31, 2029

Contract Overview: RH04-25 offers a wide range of refuse management equipment tailored to meet the needs of local governments, ensuring that all aspects of waste management are addressed. From collection to disposal, this contract is designed to ensure efficiency and effectiveness in waste management operations that lead to improved service delivery to your communities.

Key Equipment Offered:

- **Front, Side, and Rear-Load Refuse Bodies:** These refuse bodies are essential for the efficient collection and transportation of waste. They are designed to handle different types of waste pickup scenarios, catering to various community needs and infrastructure setups.
- **Bulk Waste Grapples:** Bulk waste grapples are indispensable for handling large and bulky waste items that cannot be easily managed by standard refuse bodies. These grapples enhance the capability of waste management teams to clear large debris efficiently.

- **Roll-Off Hoists:** Roll-off hoists are critical for transporting large containers filled with refuse. They facilitate the easy loading and unloading of waste containers, making them a vital part of any refuse management operation.
- **Steel Refuse Containers:** Durable and robust, steel refuse containers are designed to withstand harsh conditions and rigorous use. They provide a reliable solution for waste storage and transportation in various environments.
- **Compactors and Balers:** Compactors and balers are key to reducing the volume of waste, making transportation and disposal more efficient and cost-effective. They play a significant role in minimizing the environmental footprint of waste management activities.
- **Beach Cleaning Equipment:** Beach cleaning equipment is crucial for maintaining clean and safe recreational areas. This equipment helps in the removal of debris and litter from beach environments, promoting environmental conservation and public safety.
